Further information relating to those statutory financial statements required to be disclosed in accordance with section 436 of the Companies Ordinance is as follows:

The HKMC has delivered the consolidated financial statements for the year ended 31 December 2018 to the Registrar of Companies as required by the Companies Ordinance.

The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under section 406(2), 407(2) or 407(3) of the Companies Ordinance.

Financial Review

The unaudited consolidated profit after tax of the HKMC for 1H 2019 was HK\$247 million (1H 2018: HK\$256 million). The annualised return on shareholders' equity was 3.3% (1H 2018: 4.1%). The decrease in profitability mainly reflected the accounting loss of HKMC Annuity Limited (HKMCA), a wholly-owned subsidiary of the HKMC to operate annuity business, for maintaining prudent statutory reserves based on actuarial assumptions, partially offset by the net gain on investments at fair value through profit or loss.

In 1H 2019, the net interest income was HK\$288 million (1H 2018: HK\$268 million) and the annualised net interest margin of the average interest-earning assets remained stable at 1.1% (1H 2018: 1.1%).

New loans drawn down under the MIP amounted to HK\$15.7 billion in 1H 2019 (1H 2018: HK\$18.9 billion). The risk-in-force borne for the MIP by HKMC Insurance Limited (HKMCI), a wholly-owned subsidiary of the HKMC to operate general insurance business, was HK\$21.1 billion (31 December 2018: HK\$19.7 billion). Net mortgage insurance premiums earned, after income amortisation, commission expenses and provision, were HK\$98 million (1H 2018: HK\$86 million).

Other income was HK\$246 million (1H 2018: HK\$92 million), which mainly consisted of investment income of HK\$168 million (1H 2018: HK\$46 million) from placements with the Exchange Fund and net gain of HK\$104 million (1H 2018: net loss of HK\$47 million) on investments at fair value through profit or loss.

The HKMC continues to maintain stringent controls on operating expenses. The total operating expenses were HK\$231 million, HK\$40 million more than that of 1H 2018. The increase was primarily due to the implementation of the annuity business and development of the infrastructure financing and securitisation business. The cost-to-income ratio was 48.9% (1H 2018: 41.8%).

In accordance with the Guidelines on Capital Adequacy Ratio (CAR), the calculation of capital ratio follows the basis of consolidation for financial reporting with the exclusion of regulated subsidiaries which are subject to separate requirements on maintenance of adequate capital (i.e. the HKMCI and the HKMCA, as regulated by the Insurance Authority). Excluding the investment costs in these unconsolidated regulated subsidiaries, the CAR remained solid at 28.6% as at 30 June 2019 (31 December 2018: 26.8%), well above the minimum requirement of 8% stipulated by the Financial Secretary.

The solvency ratios of the HKMCI and the HKMCA as at 30 June 2019 were about 35 times and 27 times respectively, well above the respective 200% and 150% minimum regulatory requirements stipulated by the Insurance Authority.
