

Rating Action: Moody's assigns definitive ratings to five classes of notes issued by Bauhinia ILBS1 Limited

30 May 2023

US\$364.35 million of securities rated

Hong Kong, May 30, 2023 -- Moody's Investors Service has assigned definitive ratings to five classes of notes issued by Bauhinia ILBS1 Limited (the Issuer).

The complete rating action is as follows:

Issuer: Bauhinia ILBS1 Limited

US\$100,000,000 Class A1-SU Senior Secured Floating Rate Notes due 19 October 2044 (the "Class A1-SU Notes"), Definitive Rating Assigned Aaa (sf)

US\$199,600,000 Class A1 Senior Secured Floating Rate Notes due 19 October 2044 (the "Class A1 Notes"), Definitive Rating Assigned Aaa (sf)

US\$36,500,000 Class B Senior Secured Floating Rate Notes due 19 October 2044 (the "Class B Notes"), Definitive Rating Assigned Aa1 (sf)

US\$18,250,000 Class C Senior Secured Floating Rate Notes due 19 October 2044 (the "Class C Notes"), Definitive Rating Assigned A2 (sf)

US\$10,000,000 Class D Senior Secured Floating Rate Notes due 19 October 2044 (the "Class D Notes"), Definitive Rating Assigned Baa3 (sf)

The Class A1-SU Notes, Class A1 Notes, Class B Notes, Class C Notes and Class D Notes are referred to herein as the "Rated Notes." In addition to the Rated Notes, the issuer also issued US\$40,432,000 of subordinated floating rate notes.

RATINGS RATIONALE

This is a project finance and corporate infrastructure collateralized loan obligation (CLO) cash flow securitization. The notes are collateralized by a portfolio of 35 bank-syndicated senior secured project finance and corporate infrastructure loans to 25 projects in Asia-Pacific, the Middle East, and South America. The portfolio is not expected to be actively traded during the replenishment period.

All the loans in the initial portfolio do not have a Moody's rating. Moody's has assigned credit estimates to each of these unrated loans to evaluate the credit quality of the initial portfolio. The weighted average rating factor (WARF) of the initial portfolio is 772 before applying the credit estimate notching adjustments, and 936 after applying the credit estimate notching adjustments.

Moody's ratings of the Rated Notes have taken into account the following key characteristics of the initial portfolio at

closing.

1. High credit quality portfolio: The WARF of the identified portfolio is 772 before applying the credit estimate notching adjustments, and 936 after applying the credit estimate notching adjustments.

2. Mostly project finance loans with high asset recovery prospects: The portfolio consists of predominantly bank-syndicated senior secured project finance loans (80.8% of the pool), which historically have had high recovery rates. The remaining portion of the pool consists of telecommunication and utilities corporate infrastructure loans (15.5%) and corporate-guaranteed project finance loans (3.7%). About 3.8% of the portfolio also benefit from external credit support, which will improve loan recovery prospects.

3. High project and sector concentrations: With only 25 projects, the portfolio is highly concentrated, with a large exposure to a few projects and in energy-related sectors such as power generation renewables, power generation non-renewables, schools and education, and liquefied natural gas (LNG). Certain projects also involve common off-takers, operators or sponsors. The exposure to the largest obligor group in the power generation renewables sector comprises about 11.8% of the portfolio, greater than the subordination of the Class D Notes. There are six other projects where each comprises between 6% and 8% of the initial portfolio. A significant credit deterioration of any of these projects would have a negative rating impact on the Rated Notes. In Moody's analysis, the agency considered several stress scenarios assuming default of the largest borrower or higher asset correlation.

4. High country risk: Of the identified portfolio, about 30% of the portfolio is exposed to projects that are in countries with single-A or below foreign-currency country ceilings (FCC). The geographical distribution of the portfolio is widely diversified across 12 countries in different regions, including Asia-Pacific, the Middle East, and South America. Exposures to the top-three countries that have non-Aaa FCC are China (about 14%, Aa1 FCC), India (about 12%, A3 FCC), and Brazil (about 12%, Baa2 FCC).

5. High participation exposures: The issuer invested in about 18% of the portfolio via funded participation Agreements with The Hong Kong Mortgage Corporation Limited (HKMC, rated Aa3/P-1), the sponsor and collateral manager, or with rated bank(s) at closing, instead of being the lender of record. The issuer will rely on HKMC or the rated participation bank(s) to enforce its rights against the borrowers and be exposed to the credit risk of HKMC and these rated bank(s).

6. Undrawn commitment amount: Of the identified portfolio, about 1.5% of the portfolio are pending to be drawn prior to the first note payment date. The issuer set aside cash in its bank account to ensure it has sufficient liquidity to fulfil its lending obligation.

7. Construction risk: Two projects, representing around 12.5% of the portfolio, are still under construction, but these projects are nearing completion.

8. Floating rate basis mismatch: The issuer is exposed to floating rate basis mismatch as all the rated notes' interest payments are linked to Secured Overnight Financing Rate (SOFR), while about 32% of the initial portfolio are still linked to USD-Libor, and the remaining about 68% are linked to SOFR. As USD-Libor will cease on 30 June 2023, the benchmark rate of loans that are currently USD-Libor may transition to other floating rate indices such as term SOFR or daily non-cumulative compounded SOFR or costs of funds of the lenders. In Moody's analysis, the agency considered zero credit adjustment spread except for loans that have executed terms for USD-Libor transition.

Moody's used a loan-by-loan Monte Carlo simulation framework in Moody's CDOROM™ to model the portfolio default distribution and asset-type specific recovery assumptions for this project finance CLO. Moody's has assumed three years of recovery delay for the project finance loans and 1.5 years of recovery delay for the corporate loans. In the cash flow model, for each tranche, Moody's used a separate fixed recovery rate assumption for each sub-pool (project finance loans and corporate loans) together with the default distribution generated by CDOROM. For the

project finance loan sub-pool, Moody's determined the certainty equivalent fixed recovery rate for each tranche.

At a portfolio level, Moody's notes that:

1. The WARF of the portfolio, after applying the credit estimate notching adjustments, is 936.
2. The weighted average mean recovery rate (WARR) of project finance loans is about 70%. The weighted average fixed recovery rate (WARR) of corporate infrastructure loans is about 39%.
3. The average asset correlation of the portfolio is about 21.5%.

In addition to the quantitative factors that Moody's explicitly models, the agency has also considered qualitative factors.

Moody's has considered the structural protections in the transaction, the risk of an event of default, the legal environment and specific documentation features. All information available, including macroeconomic forecasts, inputs from other Moody's analytical groups, market factors, and judgments regarding the nature and severity of credit stress on the transaction, influenced the rating decision.

The target portfolio is fully acquired on the closing date, with 98.5% of loans fully drawn and the remaining 1.5% pending to be drawn by borrowers. The transaction has a three-year reinvestment period, during which the collateral manager may direct the issuer to use unscheduled principal collections, undrawn lending commitments that are cancelled or have expired, and proceeds from the sale of credit-risk, defaulted or non-eligible sustainability assets to purchase new assets. The purchase of new assets is subject to certain conditions, including satisfying interest and par coverage tests.

After the reinvestment period, the collateral manager may no longer direct the issuer to purchase additional assets, and unscheduled principal collections and proceeds from the sale of assets will be used to amortize the notes in sequential order.

The transaction incorporates interest and par coverage tests that, if triggered, divert interest and principal proceeds to pay down the notes in the order of seniority. Apart from this, the issuer will use scheduled principal collection to amortize the Rated Notes in sequential order. The Class A1-SU Notes and Class A1 Notes rank pari passu to each other.

This is the first CLO transaction of The Hong Kong Mortgage Corporation Limited (HKMC, rated Aa3/P-1), the collateral manager of the transaction. The CLO transaction is managed by the Infrastructure Financing and Securitisation Division of HKMC. HKMC was established in Hong Kong SAR, China in 1997 and is wholly owned by the Hong Kong Government through the Exchange Fund, with reported total assets of HKD173.2 billion as of the end of December 2021. HKMC invested in the subordinated notes issued by the issuer and provided a sponsor loan to the issuer at closing to support the liquidity of the issuer in meeting interest payments on the rated notes on the first payment date.

RATINGS METHODOLOGY:

The principal methodology used in these ratings was "Project Finance and Infrastructure Asset CLOs Methodology" published in November 2021 and available at <https://ratings.moodys.com/rmc-documents/355059>. Alternatively, please see the Rating Methodologies page on <https://ratings.moodys.com> for a copy of this methodology.

Factors that would lead to an upgrade or downgrade of the ratings:

The performance of the Rated Notes is sensitive to the performance of the underlying portfolio and the credit quality of the counterparties to the transaction, which in turn depend on uncertain economic and credit conditions that may

change. The collateral manager's investment decisions and management of the transaction will also affect the performance of the Rated Notes.

Further details regarding Moody's analysis of this transaction may be found in the related new issue report, available soon on www.moody.com.

REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <https://ratings.moody.com/rating-definitions>.

Moody's took into account one or more third party due diligence assessment(s) regarding the underlying assets or financial instruments (the "Due Diligence Assessment(s)") in this credit rating action and used the Due Diligence Assessment(s) in preparing the ratings. This had a neutral impact on the ratings.

The Due Diligence Assessment(s) referenced herein were prepared and produced solely by parties other than Moody's. While Moody's uses Due Diligence Assessment(s) only to the extent that Moody's believes them to be reliable for purposes of the intended use, Moody's does not independently audit or verify the information or procedures used by third-party due-diligence providers in the preparation of the Due Diligence Assessment(s) and makes no representation or warranty, express or implied, as to the accuracy, timeliness, completeness, merchantability or fitness for any particular purpose of the Due Diligence Assessment(s).

In rating this transaction, Moody's CDOROM™ is used to model the expected loss for each tranche. Moody's CDOROM™ is a Monte Carlo simulation tool which takes each underlying asset default probability as input. Each underlying asset default behavior is then modeled individually with a standard multi-factor model incorporating both intra- and inter-industry correlation. The correlation structure is based on a Gaussian copula. Each Monte Carlo scenario simulates defaults and if applicable, recovery rates, to derive losses on a portfolio. For a synthetic transaction, the model then allocates losses to the tranches in reverse order of priority to derive the loss on the tranches. By repeating this process and averaging over the number of simulations, Moody's can derive the expected loss on the tranches. For a cash transaction, the portfolio loss, or default, distribution produced by Moody's CDOROM™ may be input into a separate cash flow model in accordance with its priority of payment to determine each tranche's expected loss.

Moody's quantitative analysis entails an evaluation of scenarios that stress factors contributing to sensitivity of ratings and take into account the likelihood of severe collateral losses or impaired cash flows. Moody's weights the impact on the rated instruments based on its assumptions of the likelihood of the events in such scenarios occurring.

For ratings issued on a program, series, category/class of debt or security this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series, category/class of debt, security or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the issuer/deal page for the respective issuer on <https://ratings.moody.com>.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating

action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

The ratings have been disclosed to the rated entity or its designated agent(s) and issued with no amendment resulting from that disclosure.

These ratings are solicited. Please refer to Moody's Policy for Designating and Assigning Unsolicited Credit Ratings available on its website <https://ratings.moodys.com>.

Moody's considers a rated entity or its agent(s) to be participating when it maintains an overall relationship with Moody's. Unless noted in the Regulatory Disclosures as a Non-Participating Entity, the rated entity is participating and the rated entity or its agent(s) generally provides Moody's with information for the purposes of its ratings process. Please refer to <https://ratings.moodys.com> for the Regulatory Disclosures for each credit rating action, shown on the issuer/deal page, and for Moody's Policy for Designating Non-Participating Rated Entities, shown on <https://ratings.moodys.com>.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Moody's general principles for assessing environmental, social and governance (ESG) risks in our credit analysis can be found at https://ratings.moodys.com/documents/PBC_1288235.

The Global Scale Credit Rating on this Credit Rating Announcement was issued by one of Moody's affiliates outside the EU and is endorsed by Moody's Deutschland GmbH, An der Welle 5, Frankfurt am Main 60322, Germany, in accordance with Art.4 paragraph 3 of the Regulation (EC) No 1060/2009 on Credit Rating Agencies. Further information on the EU endorsement status and on the Moody's office that issued the credit rating is available on <https://ratings.moodys.com>.

The Global Scale Credit Rating on this Credit Rating Announcement was issued by one of Moody's affiliates outside the UK and is endorsed by Moody's Investors Service Limited, One Canada Square, Canary Wharf, London E14 5FA under the law applicable to credit rating agencies in the UK. MOODY'S CREDIT RATINGS, ASSESSMENTS, OTHER OPINIONS AND PUBLICATIONS ARE NOT INTENDED FOR USE BY ANY PERSON AS A BENCHMARK AS THAT TERM IS DEFINED FOR REGULATORY PURPOSES AND MUST NOT BE USED IN ANY WAY THAT COULD RESULT IN THEM BEING CONSIDERED BENCHMARK.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the credit rating process or in preparing its Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING, ASSESSMENT, OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies

and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY100,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
